ALBANIANS TOLD TO JOIN REBELS OR BE PUNISHED

It is Expected That Immense Army Will be in Field as Result.

Turkish Soldiers Are in Precarious Positions.

CHEDIL HAMID'S OLD FRIENDS.

London, April 29.—Despatches here say Turkish troops are surrounded by a big invading force in Kachanik pass and a violent battle is imminent, serious fighting is reported at Ispay.

Albanian revolt leaders issued a manifesto today summoning all adult Albanians to join the revolt under penalty of being considered traitors. Now 45,000 rebels are fighting, according to despatches from Pristina, and the new edict is expected to double the number within a week. The rebels are in such a commanding position in Kachanik pass and other strategic points that the Turkish troops are delaying further attack, awaiting reinforcements. The rebels are constantly harassing them. Abdul Hamid's old palace guard is said to be the board of strategy directing the revolt.

Enrollment Grows; Census Decreases

According to the returns of J. F. Cummings, who took the school census of the city, there is a loss of 646 in the number of school children in Paducah. His figures show that there are 5,776 children of school age in the city. Last year 5,940 names were secured. This year there is an increase of over 100 names in the school enrollment, and the school officials will endeavor to secure the names of any children omitted by the enumerators.

Monday the principal of each city school will secure the names of all the pupils in his school and they will be compared with the names the enumerators turn in for the purpose of discovering omitted children. Last year a careful census was taken and although there was a decrease in the school enrollment, there was a gain of ten white children and a loss of about 100 colored. According

JURY WILL TAKE SMEDLEY'S CASE THIS AFTERNOON

Arguments of Counsel Will be Concluded Before Supper Time.

Defense Rests on Plea of Mental Incapacity.

(CONFESSION SAID TO BE MADE)

Arguments in the trial of Abram Smedley, charged with forgery, began this afternoon. For arguments two hours were given for each side, and the jury will receive the case about 5:30 o'clock this afternoon. It is probable that a verdict will not be reached before tomorrow, although Circuit Judge Reed may receive a verdict tonight if the jurors agree. None of the other indictments will be taken up for trial at this term of court.

All this morning the main evidence introduced was testimony relative to the condition of Smedley's mind after the use of the drugs. The defense rested upon the fact that the drugs affected his mind to such a degree that Smedley was unable to distinguish the difference between right and wrong. Dr. W. T. Gardner, who is in charge of the western state asylum at Hopkinsville, was summoned as one of the witnesses for the prosecution, but was not used.

Most of the physicians testified to the fact that the use of the drug would affect Smedley's mind, but it was difficult to prove whether the drugs affected his mind to the degree of insanity or loss of will power.

Attorney S. H. Crossland opened the argument for the defense, and was followed by County Judge A. W. Barkley. Judge John Hendrick closed the argument for the defense, and Commonwealth's Attorney John G. Lovett will conclude the argument for the prosecution.

Court House Filled.
Owing to the interest in the trial of Smedley the court house was comfortably filled yesterday afternoon when the trial was called. There are number of witnesses in the trial, and many others were present to hear the testimony. Little time was lost in getting into trial, as the first twelve men called from the special venire were accepted for service and the evidence begun.

On both sides the attorneys fought hard, and Circuit Judge William Reed was compelled to use the gavel more than once in settling arguments between the attorneys. He several times threatened to fine the attorneys unless they ceased wrangling and making certain statements in the presence of the jury.

Attorneys on both sides objected frequently to evidence. County Judge Alben W. Barkley was a witness for the prosecution and later directed the examination of the witnesses. Attorneys for Smedley objected to the county judge as an attorney in the case. Judge Barkley stated that as former county attorney he was familiar with the case and by special request of both the commonwealth's and the county attorney was directing the examination. Judge Reed permitted him to continue.

Former County Judge R. T. Lightfoot was the first witness called. He testified that about six weeks ago in the rear office of County Judge Alben W. Barkley, Smedley confessed to him that he had forged his name frequently. He said Smedley gave the excuse that he was up against it and would do anything to get money. In the office at the time was Smedley, Richard Davis, Judge Lightfoot and County Judge Barkley was called into the room and the confession repeated, according to the evidence. Judge Barkley corroborated the testimony of Judge Lightfoot and said when he entered the room that both Smedley and Judge Lightfoot were crying.

Judge Lightfoot testified that he had never authorized Smedley or anybody in the county court clerk's office to sign his name to checks. The warrant for \$25 was endorsed on the back with the name of Judge Lightfoot, who said it was not his original signature, and said it was Smedley's handwriting. County Court Clerk Singleton said it looked like Smedley's handwriting, but he was not positive.

J. A. Gardner, a druggist, cashed the check and said he had cashed numerous warrants for Mr. Smedley, but was not certain about the genuineness of the signature.

Dr. H. P. Sights testified as to the condition of Smedley's mind from the effect of drugs.

Luther Thompson's Mother Thinks He is Dead and Buried at Decatur, According to Birmingham Story

Message This Afternoon Says That She Has Received No Communication From Him in Person or in Spirit.

Birmingham, Ala., April 29 (2:30 p. m.)—Mrs. Lum Thompson has received no message from her son, Luther, and is at a standstill in her belief of his death and she believes that the messages about her son being alive and that he is en route to Birmingham is fiction and that it is being made public for the purposes of the manufacturer.

Writing to Distinter Body. Decatur, Ala., April 29. (Special.)—Brown & Son, undertakers say that if the authorities desire it they will disinter the body of Luther Thompson without cost and identify it beyond question.

Is "Red" Thompson dead or alive? At 1 o'clock this afternoon a long distance telephone message from Birmingham stated that "Red" Thompson's mother has not heard anything from him, and she still believes him dead and buried at Decatur, Ala. Yes, Detective James Collier said that he received a message last night from Captain Thompson, of the steamboat Lula Warren, stating that Luther ("Red") Thompson had left Dayton, Tenn., and gone to Birmingham, Ala., to see his mother.

The defense of Hale and Guile will be to establish their story that they were on the freight train and sold a watch to the farmer at Grand Rivers. Indictments have not been returned by the grand jury. A large number of witnesses have been examined by the jurors, but it is difficult to obtain direct evidence.

Yesterday Guile received a letter from his brother telling him that "Red" Thompson was alive in Tennessee, and not to worry because Thompson could be brought to Paducah at the proper time.

FUQUA FAILS TO SECURE PARDON

GRAVES COUNTY RAPIST ALSO REFUSED EXECUTIVE CLEMENCY.

Birmingham, Ala., April 29.—Mrs. Thompson most emphatic in denial of statement regarding any news from her boy. She has absolutely no doubt as to the identity of body buried at Decatur being correct, as that of Luther Thompson, her son. She says every one who knew the boy in Decatur and viewed the remains positively identified him. She thinks the letter mystery a forgery to free the men in prison for the murder of her boy. She is very much

worried up over the stories printed, and weeps bitterly in talking of her son's death. She is deeply grateful to Paducah women and citizens for their kind treatment.

Their Story Corroborated.

Part of the story told by Guile and Hale of their whereabouts in Paducah last Sunday was corroborated yesterday afternoon by Helen Landen, a waitress at Harrell's restaurant, 215 Kentucky Avenue.

Attorney David Browning is attorney for the two men, and is at work establishing the alibi of Hale and Guile.

Thousands Quit Dangerous Calomel

PORSCMOUTH PHYSICIAN HAS A SAFE SUBSTITUTE FOR UNDER-TAINT DRUG.

Dr. F. M. Edwards, a prominent physician of Portsmouth, Ohio, has discovered a new laxative and liver toner in a combination of vegetable materials, including olive oil, which is in effect almost exactly like the old and untrustworthy Calomel, except that there are none of the bad after effects of Calomel.

Dr. Edwards had long been a foe of Calomel, though he recognized its value along with its dangers.

His distrust of the inserting drug eventually started him years ago towards experiments with the view of discovering a substitute, and he is today in full possession of the long-sought-for combination, which is in the shape of a little sugar coated, olive oil coated tablet.

All druggists sell them in neat vest pocket sizes at 10c and 25c. The Olive Tablet Co. of Portsmouth, Ohio, is the manufacturer.

THAT IS THE SLOGAN OF COMMISSIONER RANKIN.

Head of the State Agricultural Department Advises Less Tobacco.

Frankfurt, Ky., April 29.—Because the report of the crop conditions in this state for the month of March showed a decided falling off in the acreage of wheat, Commissioner of Agriculture Rankin has decided to begin a campaign to induce the farmers of Kentucky to grow more wheat and less tobacco. He has a double purpose in this campaign, which will be one of education.

He will try to get the farmers to go back to the old system of taking their wheat to the mill and having it ground for their own use, take their shorts and mill feed home and feed it to their stock and sell what is left, and not until they have first supplied their own wants. During the next year Commissioner Rankin is going to try to get every farmer in Kentucky to raise some wheat on his farm.

Wellthy Manufacturer Killed in a New York Hotel.

association, was killed in New York early today by the closing of a folding bed. Smith was a prominent manufacturer and was formerly a member of the executive council when Gen. Benj. F. Butler was governor of Massachusetts.

COMET'S TAIL DIVIDING.
Diverging Branches Widening From Day to Day.

Flagstaff, Ariz., April 29.—Important observations of Halley's comet made recently at the Lowell observatory show that the tail has generally divided into two diverging branches and the distance from the nucleus of the point of divergence has varied from day to day.

Daily Thought.
Integrity without knowledge is weak and useless.—Johnson.

Wonder if they'd bite now.
—
If "Red" Thompson is there, will he please rap three times?

What, if the dogwood would forget and bloom all over again?

Well, Theodore got through yesterday without saying anything about Congo Free State.

And it wasn't the first time, either, that a Danville, Illinois, citizen had trouble with a stamped elephant.

The Indiana Democrats wanted to show Senator Beveridge that when it comes to denouncing the tariff, he is just a new beginner.

The man, who esteems his citizenship above his partisan affiliations, is always pleased when the opposing party nominates high-class men for office, and no Republican, who can lay claim to love of country, can withhold an expression of satisfaction that Indiana Democrats rebuked Tom Taggar, owner of the French Lick gambling resort, and nominated for United States senator, John W. Kern, whose impeccable character added strength to the last national Democratic ticket. Whether it is Beveridge or Kern, Indiana will contribute an honorable man to the national councils.

PADUCAH HUMOR.
It is always a pleasure to praise home products, whether in the attainments of "our boys", or the quality of our tobacco crop; but when recognition comes from other sources less prejudiced than ours, and Holland Burglers declare they like the flavor of Paducah tobacco, or blase New York exclaims over the pungent humor of Paducah growth, the praise we would bestow faintly smacks of self-satisfaction, as if we shared in the credit for it. A lecturer before Columbia college, speaking of Mark Twain, incidentally remarked that there are just as many ranking humorists in America among the number he mentioned Irvin S. Cobb, of the New York World. When the New Yorker rolls a delectable morsel of Cobbian philosophy from the end of his tongue, will we say: "We have heard of him and enjoy his humor?" We will say, with an self-conscious air, as though we deprecated his notoriety and fame we are forced to share with him: "Yea, he is from Paducah, Ky."

By and by when the dome of Cobb's cranium begins to shine like a top on a mountain peak, and a fringe above his ears turns to snow, we shall have woven about his footills of his early days marvellous legends; and, likely as not, a folk lore of Paducah will picture Irvin S. Cobb and old Chief Duke sitting on a log by the Tennessee river, cracking jokes together, "right where this building stands today. I've seen them many times with my own eyes."

Already Louisville newspaper offices know a classic in which Irvin

IRVIN S. COBB AMONG THEM

New York, April 29.—Gelett Burgess, who is a humorist, praised Mark Twain in a lecture on "American Humor" at Columbia University. He said Tom Sawyer and Huckleberry Finn were characters which would survive even after "Innocents Abroad" were no longer remembered.

"His serious work proclaimed the artist," continued Mr. Burgess, "and confirmed his humorous work. By his independence and his geniality he established a characteristic type of American abroad. I think that was his greatest work."

"There is," went on Burgess, "nothing so perishable as humor, because it is founded upon a common habit of thought—and custom changes. Humor is a natural disease which no man can catch. Nowadays the professional humorists are mostly found on the vaudeville stage while the well known American humorists can be counted on one man's fingers."

"Good humor requires good sense. All the great writers of humor had their serious side. Even the remarks

The Evening Post at Frankfort during the stormy days, succeeding the Goebel murder. The short cut to the telegraph office lay through the Capitol hotel bar, and thence Irvin Cobb was rushing with a "flash", when he encountered a line of correspondents standing at the bar with a crazy mountaineer whose particular aberration was that he was providentially called to stand guard over Goebel's tomb.

"What will you have, Mr. Cobb?" mildly inquired the mountaineer.

"Nothing, I am in a hurry."

"You've got to take something, the other insisted. "Name it."

"Not now. I'll be back in a minute. Thank you."

The mountaineer drew a revolver and pointed it at Cobb, who threw up his hands.

"But—"

"Which will you have?"

"Termilk", assented Cobb, who admitted afterwards that he didn't care especially for buttermilk; but since he had started on the first syllable he thought he could finish that quicker than he could begin a new word.

Which goes to show that quickness of wit is an asset to a humorist.

Some Stories Around the Town.

Tobacco plants it is reported did not fare so badly during the cold weather as first expected, and with a few days of sunshine the tobacco plants will look in good shape again. Some of the plants have leaves as large as a half-dollar, and the fact that the plants were not damaged seriously by the frost is the cause of much rejoicing over the Black Patch. The frost damaged the plants in some vicinities by tearing the leaves off, but the frost was feared most, as the growers were unable to protect the tender plants.

Sample trees of the large thin shelled Louisiana pecan trees were brought to the editorial rooms of the Evening Sun today by Mr. James F. Estes, 1739 Harrison street. Mr. Estes takes much interest in forestry and has over 1,000 of the small tree in his yard. The trees will bear in ten years, and are highly prized.

Although they were reared in Paducah together and were boyhood chums, Joseph Mattison, sexton of Oak Grove cemetery, failed to recognize Joe Chaudet, now of Grand Rivers, when they met down town this morning after being separated for thirty years. "You're Joe Mattison," said Mr. Chaudet, looking at Mr. Mattison, when they met. "Look at me Joe; we were brought up together and I'll bet you can't tell my name," said Mr. Chaudet. Mr. Mattison started after his spectacles to take a better look at the old friend when Mr. Chaudet revealed his name. "Why you know old Joe Chaudet," he said. "Well I will," said Mr. Mattison and he stretched out his hand. It was a hearty handshake. Mr. Chaudet left Paducah thirty years ago and was a mere boy. He is now a prosperous farmer at Grand Rivers, but well remembered Mr. Mattison.

The following extract from one of the most prominent newspapers of Texas will be of interest to the friends of Murrell Buckner, a farmer Paducah boy, who is now quite prominent in the Lone Star state: "Murrell L. Buckner, of Dallas, is at the Rice hotel. Mr. Buckner arrived in the city early yesterday morning from Dallas. Speaking of the political situation in North Texas, Mr. Buckner said to a representative of the Post: 'Colquitt will carry Dallas county for governor in the July primary election. There is no question about it.' Mr. Buckner in the campaign of 1906 was Mr. Colquitt's campaign manager in Dallas, and the gentleman never goes off half-cocked in any statement made by him."

"I'd like to get a tablet," said the customer, addressing the drug clerk. "Dyspepsia or writing?" inquired the clerk.—Ames Times.

BAD FOR ECZEMA.

Water Frequently Aggravates Skin Troubles.

In certain inland European districts where is seldom used for bathing purposes the people are almost immune from skin afflictions. The best authorities now agree that soap and water are to be avoided in the treatment of skin diseases, particularly eczema when present in the scalp or on the feet, as water is an irritant, and when not actually the cause of the disease, at least aggravates it. For this reason prescriptions put up in liquid or soap form, or containing grease or alcohol, have always failed.

The new skin remedy, posism, is a flesh-colored ointment, containing no grease. Under its directions soap and water are forbidden. It may be used on the tender skin of infants with soothing and beneficial effect, and in eczema cases stops the itching immediately, rapidly restoring the skin to its normal condition.

Every druggist keeps both the 50-cent size (for minor troubles) and the \$2 jar, and either of these may be obtained at Gilbert's and R. W. Walker & Co.'s as well as other reliable drug stores.

But no one is ever asked to purchase posism without first obtaining a sample package, which will be sent by mail, free of charge, upon request, by the Emergency Laboratories, 32 West Twenty-fifth street, New York City.

CAUSES DEBILITY.

Here Are Facts Backed Up By a Strong Guarantee.

Catarrh causes debility. In our opinion, most people suffering from general debility have catarrh. Such cases of debility cannot be completely cured by medicine alone designed to eradicate catarrh. In every case where our remedy fails to give entire satisfaction we will not charge a cent for the medicine employed during the trial. Now, surely no one should hesitate to believe us or to put our claim to a practical test under such conditions. We will take all the risk; no one else can lose anything by the transaction.

We make these statements and this offer because we know and have time and again proved that Rexall Muco-Tone rarely fails to do as we claim. It is not a cure-all prescribed to cure every disease that flesh is heir to. It is intended for one purpose, i. e., to cure catarrh by assailing the diseased condition in a reasonable, scientific way, which is to employ agents that have been found to have the tonic and alternative power to correct faulty metabolism (tissue change) and to stimulate, and help nature overcome the cause or causes of catarrh. This being done, appetite increases, nutrition improves, weight is gained, comfort of body is attained and life's work taken up with the zest natural to the perfectly healthy individual.

We want you to try Rexall Muco-Tone. Follow directions and take it regularly and consistently for a reasonable length of time. Then, if you are not satisfied, come back and tell us and the money you paid for the treatment will be returned without any argument whatever.

Rexall Muco-Tone comes in two sizes, 50c and \$1.00 a bottle. Sold only at our store, —The Rexall Store. W. B. McPherson, 125 Broad-

TWELVE WARRANTS

AGAINST SOUTH SIDE DRUGGIST THIS MORNING.

With twelve warrants against him, six charging him with violating the Sabbath and six for retailing liquor without a license in violation of the city ordinance, John Niehaus, a druggist at Eighth and Husbands streets, was arraigned in police court this morning. All the cases were continued until May 3. The warrants were issued late yesterday afternoon and served on him.

Miss Puryear-Hugg, a sister of the bride, presided at the organ and rendered a beautiful musical program preceding the entrance of the bridal party. The Mendelsohn wedding march was played as the processional and the recessional. "I Love You Truly," was softly rendered during the ceremony.

The only attendants were the ushers, who preceded the bride and the bridegroom in the following order: Mr. Roscoe Puryear and Mr. Floyd Harris, Mr. S. R. Lemon and Dr. G. B. Froage. At the altar the bridal party was met by the Rev. M. E. Dodd, the pastor of the First Baptist church, who impressively performed the ceremony.

The bride was becomingly gowned in an exquisite lingerie robe of embroidered bands and net, elaborately trimmed with lace. She wore a pretty picture hat of white lace and straw, trimmed in white roses. Her shower bouquet was of Bride roses and plumes.

Following the ceremony an informal reception was held at the Puryear home on Broadway, where the bridal party and a limited number of the most intimate friends

Oraniss, Texas.—"After my baby was born," writes Mrs. Bell Teal of this city, in a recent letter, "I remained very sick, which kept me in bed for eight weeks.

I couldn't get up, all this time, and every day, he didn't do me any good. He said I was suffering from serious womanly trouble, and at last he advised my husband to give me wine of Cardui.

I hadn't taken but one (1) bottle of Cardui till I was up, going everywhere, and by the time I had taken two (2) bottles, I was doing all my work in the house.

Before I took Cardui, I suffered all the time, with my back, legs and head, but Cardui relieved these pains. I still take Cardui every now and then, and praise it most highly to all my friends."

Cardui helps when other medicines have failed, because it contains no ingredients not found in any other medicine—not sold in drug stores—not obtainable except through buying Cardui, the woman's tonic.

Pure, safe, reliable, gentle—Cardui is the ideal medicine tonic for weak sick women. Try Cardui.

Every Day is Mother's Day.

Frankfort, Ky., April 29.—Declaring that, in his opinion, every day is mothers' day with right-thinking men and women, and that those who are not right-thinking will not be affected by the designation of one day in the year as such, Governor Wilson has written a letter to Miss Anna Jarvis, of Philadelphia, declining her request to set such a day apart in the state. He declared in his communication that he had found

no general demand in Kentucky for the mothers' day observance that has been adopted by several states.

The Frankfort and Kentucky River Packet company has decided to organize with a capital stock of \$50,000. The company will be managed by Pearl Burdette and will immediately place an order for a new boat. In the meantime the Oriole will be run on the Kentucky river trade between Frankfort and Madison, Ind.

For Cairo the Dick Fowler cleared port at 8 o'clock this morning with a good trip. She is due back tonight about 9 o'clock.

MARK TWAIN could take a worthless sheet of paper, write a poem on it and make it worth \$65,000—that's genius. J. Pierpont Morgan can write a few words on a sheet of paper and make it worth \$5,000,000—that's capital. The United States can take an ounce and a quarter of gold and stamp upon it an "Eagle Bird" and make it worth \$20—that's money. A mechanic can take material worth \$5, and make it into watch springs worth \$1,000—that's skill. A merchant can take an article worth 50¢ and sell it for \$1—that's business. A lady can purchase a 75¢ hat but prefers one that costs \$27—that's foolishness. The printer of this could write a check for \$75,000,000 but it wouldn't be worth a dime—that's tough. Anyone for a small sum of money can obtain an insurance policy from SMITH & DAVIS—that's prudence.

Government gauge at 7 a. m. read 16.7, indicating a fall of six-tenths of a foot since yesterday. Weather clear and warm and business fair.

Driftwood.

In command of Capt. Frank Agnew, the Chattanooga left for Evansville late yesterday afternoon. She is due back Sunday and will go to Chattanooga, Tenn.

The Kentucky arrived at 1:30 this morning from Riverton, Ala., and went immediately to Metropolis and Brookport to unload. She will return here tonight and leave at 6 p. m. tomorrow for Riverton.

One of the most valuable and neatest log raft seen here was brought out of the Tennessee yesterday afternoon by the harpod boat Barth and delivered to the Sherrill-Russell Lumber company. The raft consisted of about 200,000 feet of poplar timber.

At 3 o'clock this morning the City of Saltville came out of the Tennessee and left shortly afterwards for St. Louis.

The George Cowling made her first trip here from Metropolis on time this morning and arrived again at 3 o'clock this afternoon. She will leave at 4:30 for a return trip.

The river here has been falling on an average of half a foot each day for a week. No water is yet in sight.

Secretary Charles Robertson, of the Paducah and Illinois Ferry company left this morning for Helena, Ark., to remain until the new ferryboat "G. W. Robertson" is completed. President John E. Rollins has been there several weeks.

The Ohio on time from Golconda today with a good trip and departed at 2 p. m. for return trip.

The Louisville Herald says: Ten or fifteen workmen in the employ of the Falineau Electrical Construction company had a narrow escape from death or serious injury yesterday morning at 9 o'clock when one of the big derricks used in hoisting dirt from the terrace that is being constructed across the levee for the water supply pipe of the Kentucky Electric company suddenly gave way and fell to the ground.

This derrick which is fifty feet in height and very heavy is supposed to have been loosened from its foundations by the recent rains. Luckily workmen noticed it as it began to topple and shouted a warning to their fellows in time for them to get out of the way.

Injured in Runaway.
Fulton, Ky., April 29.—Nick Willingham, a well known citizen, was seriously if not fatally injured this afternoon in a runaway, and his companion, J. H. Rankin, was painfully bruised. The horse was frightened by a buggy which the men were pulling behind the vehicle in which they were riding. Willingham was thrown from the buggy and the horse kicked him on the head. He was unconscious when picked up. Rankin was thrown out on a brick pavement.
